NEW THIS YEAR!

GoGuardian

PROTECTING STUDENTS WHEN THEY USE THEIR CHROMEBOOKS

Starting this school year, the South Park School District will use GoGuardian for Chromebook monitoring and filtering.

GoGuardian will replace Securly.

GoGuardian will allow the South Park School District to monitor students' activities online and filter potentially harmful or distracting content.

There is not a parent portal with GoGuardian. However, district administrators will be alerted when a student attempts to visit an inappropriate website or types inappropriate phrases.

For more information about GoGuardian, visit GoGuardian's website by clicking here, or see the GoGuardian flyer included in the Back-to-School eBackpack!
