

## Section: Narratives - Needs Assessment

### Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three- part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

**Section 1 - Needs Assessment:** In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

### Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

The impact of the pandemic has been significant in the South Park School District in all areas. SPSD has seen an increase in referrals for the Student Assistance Program, school counselor, and discipline. Truancy rates are also remarkably high. Upon reviewing academic data from

the PSSA, Star Math, Star Reading, and classroom assessments, scores are notably lower than in previous years. When conducting the stakeholder survey, 53% of our families stated that they would be interested in their child participating in an after school tutoring program (87% of families in favor of after school compared to 13% requesting before school). In knowing that transportation is a possible barrier to many families, especially those students who have a low SES or a disability, we would make transportation available for all in-person summer school. For students in grades 6-12, there will be a virtual summer school option. The teacher of record for virtual summer school will be certified teachers from SPSD. Summer school programming will be made available to all SPSD students in grades K-12. Students identified as at-risk through data analysis will be contacted by grade level teams (including the school counselor and building principals) to present the student's areas of need and explain the importance of completing a summer school program.

**Section: Narratives - Summer School Program Questions**

**Summer School Program Questions:** In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	512	Academic data from will be analyzed to determine specific areas of need for each student. Teachers will progress monitor throughout the summer.
Children with Disabilities	Academic Growth	245	Students will have access to paraprofessional support as needed.

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

Summer school will be provided to remediate and enrich in targeted areas based upon academic data results. Additional assistance will be provided to teach life skills and to offer assistance with job applications, résumés, and test preparation.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role

Number of Staff Members	Internal/Outside Provider	Role
20	Internal Provider	Summer School Teacher of Record in South Park Eagle Academy
5	Outside Provider	Extended Day Services Hired Teachers

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Savvas Curriculum Assessment Materials	Weekly	Students will show growth each week.
Star Math and Reading Assessments	Beginning, Middle, and End of School Year	Students will show growth from the end of the 2021-22 school year to the beginning of the 2022-23 school year.

6. How will the LEA engage families in the summer school program?

Families will be notified through district communication, and it will be posted on the website. Grade level teams will contact families of students who demonstrate a significant need in any academic area, whether it is for remediation or enrichment. Parent conferences will be held over the phone or in person as needed.

**Section: Budget - Instruction Expenditures**

Instruction Expenditures

**Budget**  
 \$15,111.00  
**Allocation**  
 \$15,111.00

**Budget Over(Under) Allocation**  
 \$0.00

Budget Summary

Function	Object	Amount	Description
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$10,000.00	Salaries for instructional staffing for Summer School Grades 6-12.
1000 - Instruction	300 - Purchased Professional and Technical Services	\$5,111.00	Extended Day Services - Summer Recovery. South Park Elementary Center Grades K-5.
